**MK'S MK-297 CRITERION DIAMOND SAW BLADES:** These notched rim diamond circular saw blades were the benchmark of the lapidary industry. The MK-297 diamond blades contains 30% more diamond concentration, the result of compressing the rim to exacting standards and adding 20% more synthetic man-made diamonds. The thickness of the 1010 cold rolled steel core remains the same and is both hand and machined tensioned for precision, accurate cutting. **These blades are were made in the good old U.S.A.!!!! They are no longer made.** When our inventory is depleted, that's the end of them.

**MK'S MK-301 GEM KING DIAMOND SAW BLADES:** These notched rim are MK's premium line of this style blade. A superior lapidary saw blade with the highest concentration of a special type and grade of man-made diamonds, in a new formulation that cuts hard materials such as agates and petrified wood with unprecedented speed. **These blades are now made in Korea!!!!**
