VIBRATORY TUMBLERS

CALWAY "LOT-O-TUMBLER" (VIBRATORY)

This great vibratory tumbler processes 4 pounds of rocks, start to finish in as little as 5 to 12 days depending on material hardness. This unit can process anything that will fit through the 2 1/4" opening including slabs, cabs and preforms. Polish metal and findings. Unit will not be damaged by running dry. Solid rubber barrel is easily removed for cleaning. Motor has ball bearings and cooling fans for long life. This tumbler has the power to do the job. It has been asked of me, if you could only choose one tumbler, what would it be? **THIS IS IT!!!**

BELT, Inc.

← SINGLE

DOUBLE →

MLS PART NUMBER	EQUIPMENT DESCRIPTION	PRICE
