**EXPANDABLE DRUMS** expand by rotation to hold sanding belts in place. Belts can be easily changed when stopped. These drums are made from carefully formulated rubber and are flexible enough to bend to the stone. Maximum RPM is 1750. **RUN ONLY WITH THE BELT ON!!!**

**This is the best type of drum on the market, it's what I use!!!**

**EX DRUMS** are lightweight, two piece sanding drums with resilient foam rubber center ring. Split the drum and remove the ring to change the belts.
